SUMMARY

AI Researcher with 3+ years of experience evaluating AI-powered products and conversational systems through mixed-methods research. Skilled in user interviews, usability testing, surveys, Human-AI Interaction, and qualitative and quantitative analysis. Experienced in translating research insights into product improvements, accessibility enhancements, and user-centered AI experiences

WORK EXPERIENCE

Human-AI Interaction Research Lead – AI Chatbot
Drexel University, Philadelphia, PA

Jul 2024 – Jun 2025

- Led mixed-methods research for an AI-powered university chatbot.
- Conducted 30 user interviews and usability evaluations to assess conversational experiences and user needs.
- Synthesized qualitative and quantitative findings into actionable product recommendations.
- Secured grant funding and collaborated with a cross-functional team to support product development.

Product Research Fellow
Trops (Colla Netrix, Inc.), New York, NY

Sep 2025 – Mar 2026

- Conducted user research and usability testing for a community-focused mobile application.
- Evaluated user behaviors and feedback to inform feature design and product improvements.
- Synthesized research insights into recommendations for accessibility and user experience enhancements.
- Collaborated with the CTO and cross-functional product teams to support user-centered product decisions.

AI & Product Research Consultant
Remote

July 2025 - May 2026

- Conducted user research and provided product recommendations for startups and small businesses.
- Applied AI tools to support content creation, ideation, and workflow optimization.
- Collaborated with stakeholders to improve product strategy, usability, and user experience.

Researcher, Learning Technologies & Immersive Experiences
Drexel University, Philadelphia, PA

Jul 2025 – May 2026

- Conducted research for a VR-based fashion education experience across three university courses.
- Led surveys and interviews with 50+ students to evaluate learning outcomes and user experience.
- Translated research findings into design recommendations to improve engagement and learning effectiveness.

SKILLS

- Research: Mixed-Methods Research, Interviews, Surveys, Usability Testing, A/B Testing, Accessibility Research
 - AI: Human-AI Interaction, Conversational AI, Prompt Engineering, AI Content Evaluation, LLM Evaluation, Generative AI, Human Feedback Analysis
 - Analysis: Qualitative & Quantitative Analysis, NVivo, MAXQDA, ATLAS.ti
 - Tools: ChatGPT, Claude, Gemini, Cursor, Figma, Miro, Qualtrics, Dovetail, UserTesting
 - Collaboration: Product Research, Stakeholder Management, Cross-Functional Collaboration, Agile/Scrum
 - Learning Technologies: Educational Technology, XR & Immersive Experiences, Inclusive Design
 - Additional Background: Jewelry Design, Creative Technology, Fashion Accessories Design, Branding, and Digital Media.
-

TEACHING EXPERIENCE

Visiting Assistant Professor
Pratt Institute , New York, NY

Aug 2025 – Jan 2026

- Taught graduate-level courses in UX, XR, and immersive technologies.
- Mentored student research projects focused on usability, accessibility, and human-centered design.

Adjunct Instructor
New York University (NYU), New York, NY

Mar 2026 – May 2026

- Delivered undergraduate instruction on emerging technologies and digital systems.
 - Facilitated applied learning and critical evaluation of technology-driven experiences.
-

EDUCATION

- Touro University M.S. in Artificial Intelligence, Expected Fall 2026
 - Drexel University M.S. in Digital Media, Graduated June 2025
 - Tabriz Art University BFA in Wood Design & Applied Arts, Graduated June 2022
-

PROFESSIONAL SERVICE & LEADERSHIP

- Reviewer, ACM Transactions on Computer-Human Interaction (TOCHI)
 - Reviewer, UXPA International
 - Mentor, ADPList
 - Mentor, DIFC Innovation Hub
-

HONORS & AWARDS

- IDEA-DEC MicroGrant Award | Drexel University | 2024

Awarded competitive funding for AI-driven research on inclusive university services. Led a cross-functional team, including a UI designer and web developer, to support research and product development.
